

## Session, Internet, and Print Management

Comprise Technologies' **Smart Access Manager** is the only complete, fully integrated software program for managing the use of library public computers.

**SAM** enables you to share limited computer resources among many patrons while freeing staff from constant involvement.

**SAM** enables you to establish Internet access for each patron according to your Policy *and* in compliance with Federal & State Regulations.

**SAM** enables you to control or recover the cost of patron printed materials. Reports to Comprise Unified Payment System.

**SAM** is easy to use! Patrons simply log on by entering their library card number, scanning their bar code, or inserting a smart card!

## The Total Solution for Managing Public PCs

**Automation Manager** Links with ILS products to offer maintenance free patron access.

**Sign-Up Manager** Makes it easy to sign up for a PC while in the library, or anywhere!

**Session Manager** Enforces session rules for patrons and guests, wired or wireless!

**Internet Manager** Automatically gives Internet access consistent with your Policy.

**Print Manager** Applies your print limits, enabling you to control or recover print costs.

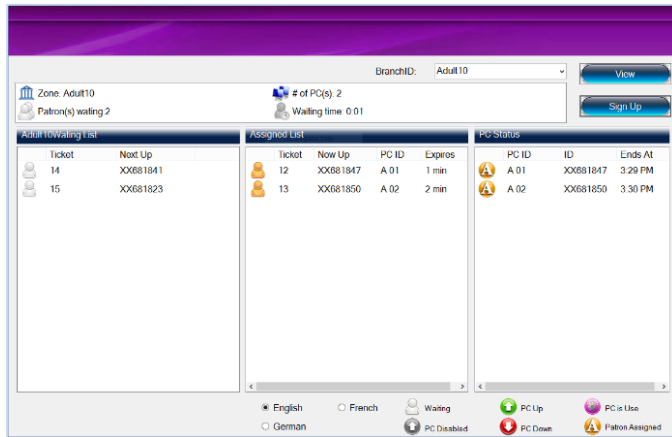

**Report Manager** Places statistical and/or comprehensive usage data at your fingertips.

**SAM Direct** means you are supported by our professional staff, not by a 3<sup>rd</sup> party dealer, 24hours a day, 7 days a week!

## SAM SIGN-UP MANAGER

Let's patrons sign up for computers while they are in the library. Sign-Up Manager enables patrons to assign the next available PC with true queuing technology. Sign-Up Manager alerts users of their assigned PC at both the Sign-Up Station as well as the welcome screen of the assigned PC. In addition, libraries can offer their patrons web-based reservations from outside the library.

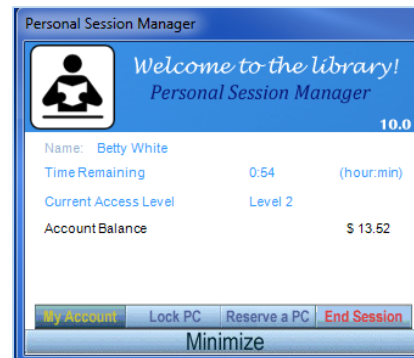

## SAM SESSION MANAGER

Lets you regulate how long people can use the library's computers and always warns the user before taking any action.

SAM Session Manager also controls:

- ✓ Inactivity time
- ✓ Remaining time
- ✓ Auto and staff session refresh
- ✓ Between sessions interval
- ✓ Auto-log off at closing time

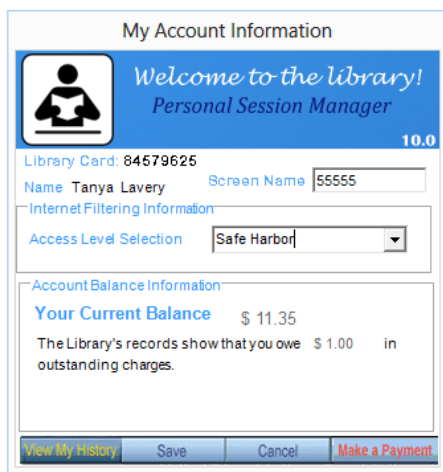

## SAM INTERNET MANAGER

SAM uses patron information to deliver the appropriate Internet access level and can automate the process of CIPA compliance!

Internet Management includes:

- ✓ Birth date driven Internet access levels
- ✓ Automatic level advance at milestone birth dates
- ✓ Self-service Internet filter selection for adults
- ✓ Control of website block and unblock lists

## SAM PRINT MANAGER

SAM's client-only Print Express and Print Release versions feature the full functionality of state of the art solutions. SAM offers optional vend solution that can handle the most demanding patron print requirements.

SAM Print Managers feature:

- ✓ Print Page Limits
- ✓ Different per Printer
- ✓ Free "x" Pages
