

Smart MONEY

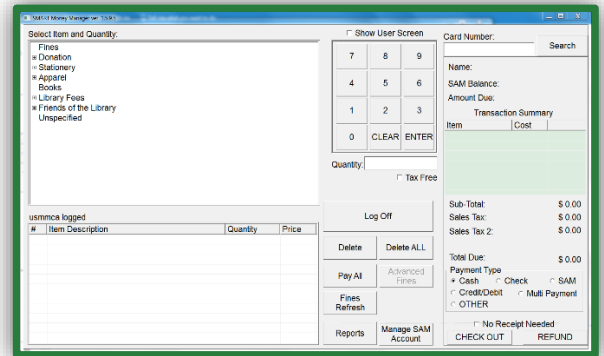

Over-the-Counter Transaction Management

Comprise Technologies' Smart Money Manager is a complete, fully integrated Point of Sale System for circulation related financial transactions specific to a library environment.

It recognizes patron accounts and links with leading ILS software to check, display, and post a fine/fee transaction or other charge. This eliminates dual entry, reduces errors, and produces accurate reports.

Smart Money Manager processes cash, check, or payment card transactions as well as refunds.

Smart Money Manager displays a list of ILS fees, merchandise, rentals, or other charges that can be paid through its easy to use interface. It is a software solution that runs on your existing service desk PCs and compatible point of sale hardware.

Ask about optional hardware!

Smart Money Manager with Patron Facing Smart Terminal

How Smart Money Manager Works:

1. Staff enters or scans a Patron ID
2. Smart Money queries ILS for Account balance
3. User confirms amount due and swipes payment card in Smart Terminal
4. Charge is Authorized or Denied; Smart Money updates ILS in real-time

About Card Holder Data:

1. Cardholder data is transmitted using secure Internet protocols
2. Cardholder Data *Must* be entered via a PED (PIN Entry Device)
3. Card Holder Data is processed on the SmartPAY Server
4. Card Holder Data is not stored after processing

Simplify Payment Processing!

Comprise™

Smart Terminal to the Rescue

Are your patrons continually asking if you accept credit cards- and your library and staff do not want to deal with the hassles that come along with it? Well, look no further because we have the answer to your problems! These hassle-free credit card terminals allow patrons to use Chip Cards, Apple Pay, Google Wallet, etc. without staff involvement! The Smart Terminal works seamlessly with Smart Money Manager to clear fines from your ILS, so your staff does not have to. Next time your patrons ask if you accept credit cards, you can tell them **YES!**

Smart Money Manager Features Real-Time Reports!

You can rely on Smart Money Manager for audit-quality reporting on cash, sales, and inventory. All reports are date range driven and can be run in summary or detail.

Smart Money Manager – Point of Sale

Saves Staff Time, Reduces Errors, Reports to Single Database!

Comprise Technologies' SMM POS software enables your staff to select all items, including the fines that were imported from the ILS. This eliminates all entry errors and provides for reconciled cash drawers. All Fine Payments are automatically updated to the Patron Account upon payment and financial transaction detail reported to the Comprise Unified Database for easy access by the business office. Access reports module through a web interface for all locations with the ability to sort and retrieve the information you need.
